RE: Contract NAS1-9692

Dear Mr. Janota:

This is in response to your request for additional information in connection with the proposal for participation in the Viking extended Mission.

Task Description: Joshua Lederberg will consult with the team and with NASA management by phone, mail and personal visits to JPL on the planning of Biology experiments, on the interpretation of the data and on the critical review of manuscripts. The effort also includes re-examination of past and current literature bearing on Viking experimental results and discussing this with team members and other interpreters; and presenting Viking experimental results to other interested scientists.

Julie Hwang will provide data-processing support to these activities.
